

Ankama's new MMO: WAVEN

This new MMORPG will take huge place in the transmedia strategy to complete the narrative background from DOFUS & WAKFU universes.

Roubaix, July 11, 2018: Always maintaining a balance between its roots and its wings, Ankama will deploy new facets of its approach to video games: the now-classics **DOFUS** & **WAKFU**, and its newest creation, **WAVEN**, currently in development.

WAVEN

First developed under the code name **DOFUS Cube**, this game has a new title: **WAVEN**. Set in a never-before-seen era of the Krosmoz (the fictional setting for the MMOs **DOFUS** and **WAKFU**), **WAVEN** takes place long after the events of season 3 of the animated series **WAKFU** (currently available on **NETFLIX**). Faced with rising tides that have only spared a few major cities, people seek refuge in what are known as Haven Dimensions.

(The final version of WAVEN will be available on PC/Mac, tablet, and mobile.)
